## DETAILED ACTION

### *Appeal Brief*

1. Receipt is acknowledged of the Appeal Brief filed on March 23, 2005.

5

### *Finality Withdrawn*

2. In careful review of the Appellant's appeal brief, especially the summary of invention and subsequent argument section, the finality of the office action (mailed out on September 8, 2004) is withdrawn.

10

### *Specification*

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

15 The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

20

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

25

A single paragraph Abstract on a separate sheet is required in response to this Office Action.

### *Claim Objections*

4. Claim 14 is objected to because of the following informalities:

Art Unit: 2876

Re claim 14, lines 6 and 11: a device is mentioned twice on lines 6 and 11. If they are the same device, second occurrence of “device” should be written as “said device” or “the device”.

If not, “a first device” and “a second device” should be used to avoid any ambiguities.

Appropriate correction is required.

5

5. Claim 16 is objected to because of the following informalities:

Claim 16 should have dependent on claim 14, not 13. Claim 13 is a method claim.

Appropriate correction is required.

10

***Allowable Subject Matter***

6. Claims 1-19 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter: the claims are directed at methods and apparatus for PIN code storing and retrieving device. The device receives PIN code, an access code, and unique feature of a protected device. When  
15 retrieving the PIN code for the protected device, the access code and unique feature of the protected device are required. Upon verification of the access code and unique feature, the PIN code is displayed to the user. Such PIN code storage and retrieval system is not disclosed or suggested by the cited references.

8. Prosecution on the merits is closed in accordance with the practice under *Ex parte*

20 *Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Art Unit: 2876
